Platinum Trio ACO HMO® 0/20 OffEx

Benefit Summary (For groups 1 to 100)
(Uniform Health Plan Benefits and Coverage Matrix)

Blue Shield of California

Effective January 1, 2017

THIS MATRIX IS INTENDED TO BE USED TO HELP YOU COMPARE COVERAGE BENEFITS AND IS A SUMMARY ONLY. THE *EVIDENCE OF COVERAGE* AND PLAN CONTRACT SHOULD BE CONSULTED FOR A DETAILED DESCRIPTION OF COVERAGE BENEFITS AND LIMITATIONS.

This plan is available only in certain California counties and cities "Service Area" as described in the Evidence of Coverage. You must live and/or work in this select Service Area in order to enroll in this plan.

This health plan utilizes an Accountable Care Organization (ACO) for its provider network. Except for Emergency Services, Urgent Services when the member is out of the Service Area, or when prior authorized, all services must be obtained through the member's Personal Physician and within the Trio ACO HMO® Provider Network to be covered.

This health plan uses the Trio ACO HMO® Provider Network

Periodontics (other than maintenance)	50%
Prosthodontics	50%
Oral surgery	50%
Orthodontics[19,20]	
Medically necessary orthodontics	50%

1. For family coverage, there is an individual out-of-pocket maximum within the family out-of-pocket maximum. This means that the out-of-pocket maximum will be met for an individual who meets the individual out-of-pocket maximum prior to the family meeting the family out-of-pocket maximum.

   Copayments or coinsurance for covered services accrue to the calendar year out-of-pocket maximum, except copayments or coinsurance for:
   - Charges in excess of specified benefit maximums
   - Family planning benefits: infertility services
   - Chiropractic benefits

   Copayments and charges for services not accruing to the member's calendar year out-of-pocket maximum continue to be the member's responsibility after the calendar year out-of-pocket maximum is reached. Please refer to the Summary of Benefits and *Evidence of Coverage* for exact terms and conditions of coverage.

2. To use this option, members must select a personal physician who is affiliated with a medical group or IPA that is an Access+ provider group, which offers the Access+ Specialist feature. Members should then select a specialist within that medical group or IPA. Access+ Specialist visits for mental health or substance use disorder services must be provided by a MHSA network participating provider.

3. Participating ambulatory surgery centers may not be available in all areas. Outpatient surgery services may also be obtained from a hospital or an ambulatory surgery center that is affiliated with a hospital, and paid according to the hospital services benefits.

4. Specialty drugs are available from a Network Specialty Pharmacy. A Network Specialty Pharmacy provides specialty drugs by mail or upon member request, at an associated retail store for pickup.

5. Skilled nursing services are limited to 100 preauthorized days during a benefit period except when received through a hospice program provided by a participating hospice agency. This 100 preauthorized day maximum on skilled nursing services is a combined maximum between SNF in a hospital unit and skilled nursing facilities.

6. Network Specialty Pharmacies dispense Specialty Drugs which require coordination of care, close monitoring, or extensive patient training that generally cannot be met by a retail pharmacy. Network Specialty Pharmacies also dispense Specialty Drugs requiring special handling or manufacturing processes, restriction to certain physicians or pharmacies, or reporting of certain clinical events to the FDA. Specialty Drugs are generally high cost.

7. Contraceptive drugs and devices covered under the outpatient prescription drug benefits do not require a copayment. However, if a brand contraceptive is selected when a Tier 1 equivalent is available, the member is responsible for paying the difference between the cost to Blue Shield for the brand contraceptive and its Tier 1 drug equivalent. The difference in cost that the member must pay does not accrue to any calendar year medical or pharmacy deductible and is not included in the calendar year out-of-pocket maximum responsibility calculation. The member or physician may request a medical necessity exception to the difference in cost as further described in the *Evidence of Coverage*. In addition, select contraceptives may need prior authorization to be covered without a copayment.

8. Mental Health and Substance Use Disorder Services are accessed through Blue Shield's Mental Health Service Administrator (MHSA) using Blue Shield's MHSA participating providers. For a listing of severe mental illnesses, including serious emotional disturbances of a child, and other benefit details, please refer to the Summary of Benefits and *Evidence of Coverage*. Inpatient services for acute medical detoxification are covered under the medical benefit; see the Hospital Benefits (Facility Services) section of the *Evidence of Coverage* for benefit details. Services for acute medical detoxification are accessed through Blue Shield using Blue Shield participating providers.

9. Blue Shield's Short-Cycle Specialty Drug Program allows initial prescriptions for select Specialty Drugs to be dispensed for a 15-day trial supply, as further described in the *Evidence of Coverage*. In such circumstances, the applicable Specialty Drug copayment or coinsurance will be pro-rated.

10. If the member or physician selects a brand drug when a Tier 1 drug equivalent is available, the member is responsible for paying the difference in cost between the brand drug and its Tier 1 drug equivalent, in addition to the generic drug copayment. The difference in cost that the member must pay does not accrue to the calendar year out-of-pocket maximum responsibility calculation. The member or physician may request a medical necessity exception to the difference in cost as further described in the *Evidence of Coverage*. Refer to the *Evidence of Coverage* and Summary of Benefits for details.
11. This benefit plan's prescription drug coverage is on average equivalent to or better than the standard benefit set by the federal government for Medicare Part D (also called creditable coverage). Because this benefit plan's prescription drug coverage is creditable, you do not have to enroll in Medicare prescription drug plan while you maintain this coverage. However, you should be aware that if you have a subsequent break in this coverage of 63 days or more any time after you were first eligible to enroll in a Medicare prescription drug plan, you could be subject to a late enrollment penalty in addition to your Part D premium.
12. Drugs obtained at a non-participating pharmacy are not covered, unless medically necessary for a covered emergency, including drugs for emergency contraception.
13. The comprehensive examination benefit allowance does not include fitting and evaluation fees for contact lenses.
14. This benefit covers collection frames at no cost at participating independent and retail chain providers. Participating retail chain providers typically do not display the frames as "Collection" but are required to maintain a comparable selection of frames that are covered in full. For non-collection frames, the allowable amount is up to $150; however, if (a) the participating provider uses wholesale pricing, then the wholesale allowable amount will be up to $99.06, or if (b) the participating provider uses warehouse pricing, then the warehouse allowable amount will be up to $103.64. Participating providers using wholesale pricing are identified in the provider directory. If frames are selected that are more expensive than the allowable amount established for this benefit, the member is responsible for the difference between the allowable amount and the provider's charge.
15. Contact lenses are covered in lieu of eyeglasses. See the "Definitions" section in the *Evidence of Coverage* for the definitions of Elective Contact Lenses and Non-Elective (Medically Necessary) Contact Lenses. A report from the provider and prior authorization from the Vision Plan Administrator (VPA) is required.
16. A report from the provider and prior authorization from the contracted Vision Plan Administrator is required.
17. All vision services must be provided through a participating vision care provider. For a list of participating vision providers, members can search in the "Find a Provider" section of blueshieldca.com. All pediatric vision benefits are provided through MESVision, Blue Shield's Vision Plan Administrator. Any vision services deductibles, copayments and coinsurance for covered vision services from participating vision providers accrue to the calendar year out-of-pocket maximum. Costs for non-covered services, services from non-participating vision providers, charges in excess of benefit maximums, and premiums, do not accrue to the calendar year out-of-pocket maximum.
18. Pediatric dental benefits are available through a network of participating dentists. With the exception of emergency dental services, all dental services must be provided through a participating dentist in this network. For a list of participating dentists, members can search in the "Find a Provider" section of blueshieldca.com. All pediatric dental benefits are provided by Blue Shield's Dental Plan Administrator.

    Copayments and coinsurance for covered dental services accrue to the calendar year out-of-pocket maximum, including any copayments for covered orthodontia services. Costs for non-covered services, charges in excess of benefit maximums, and premiums, do not accrue to the calendar year out-of-pocket maximum.
19. There are no waiting periods for pediatric dental services.
20. The Member's Copayment or Coinsurance for covered Medically Necessary Orthodontia services applies to a course of treatment even if it extends beyond a Calendar Year. This applies as long as the Member remains enrolled in the Plan.

Benefit Plans may be modified to ensure compliance with state and federal requirements.

This plan is pending regulatory approval.
