

LOCALPLUS®

HOW IT WORKS FOR YOU

With a Cigna LocalPlus plan, you have a select network of local, quality doctors and hospitals to help provide you with access to discounted, cost-effective care where you live and work.

When in a LocalPlus Network area, you must receive care from a health care professional or facility in this Network to receive in-network coverage under your plan (except for emergencies).

And if you're away from home and need care, you don't have to worry. Just look for a LocalPlus participating doctor in the area. Or if the LocalPlus Network isn't available, you can see any doctor or hospital that participates in the Cigna Away From Home (Open Access Plus) Network and still receive coverage under your plan. If you choose to go outside the LocalPlus Network when one is available – or outside the Away From Home (Open Access Plus) Network when LocalPlus isn't available – you will receive out-of-network coverage.

We've got what you need.

With Cigna LocalPlus, you get access to services to help you get well – and stay well:

- Well visits, preventive care screenings and immunizations
- Sick visits, specialist, in-hospital and outpatient care
- 24-hour emergency care

And we make it easy.

- The option to choose a primary care physician to help guide your care (it's recommended but not required)
- No referrals necessary to see a specialist, although precertification may be required
- No paperwork for you to complete for in-network hospital and outpatient care
- Access to Cigna's national network of labs, x-ray and radiology offices, and dialysis centers

Of course, you can choose to see someone else, but you'll pay more (the out-of-network rate).

4. Click on "Search". All of the doctors/hospitals in the LocalPlus Network for your search will be displayed. (Note: If there is no LocalPlus Network in the search area, a link to the Away From Home (Open Access Plus) Network will be available.)

Not yet a Cigna LocalPlus customer?

1. Go to **Cigna.com**.
2. Click on "Find a Doctor".
3. Click on "Select a plan for your search".

If a doctor or hospital doesn't participate in the LocalPlus Network, or doesn't participate in the Away From Home (Open Access Plus) Network where the LocalPlus Network isn't available, you can still continue to see them. Just be aware, you'll be charged the out-of-network rate – and your costs will likely be much higher.
