

EaseCentral & Paylocity have partnered to  
make benefits and payroll easy.

Streamline your HR processes by integrating your Paylocity payroll.

## Simple Setup

Enter your new hires into Paylocity and the integration will automatically update EaseCentral with new hire data. This allows them to make their benefit elections quickly and easily online. Once the employee has made their elections and the company admin has processed the change, the deduction will flow over to Paylocity updating the employee's payroll record with the appropriate benefit deduction.

## Open Enrollment

At the completion of open enrollment deductions for the new year are automatically loaded into Paylocity.

## Payroll & Benefits In Sync

With automated, weekly, changes-only demographic files synced from Paylocity to EaseCentral and weekly deduction files synced from EaseCentral to Paylocity, accurate employee and payroll data has never been easier to maintain.

### Price Plan

**\$0.50** pepm

at 250 lives or more.

**\$1.00** pepm

at 249 lives or less.

There will be a \$500 setup fee for each employer group.

## How to activate

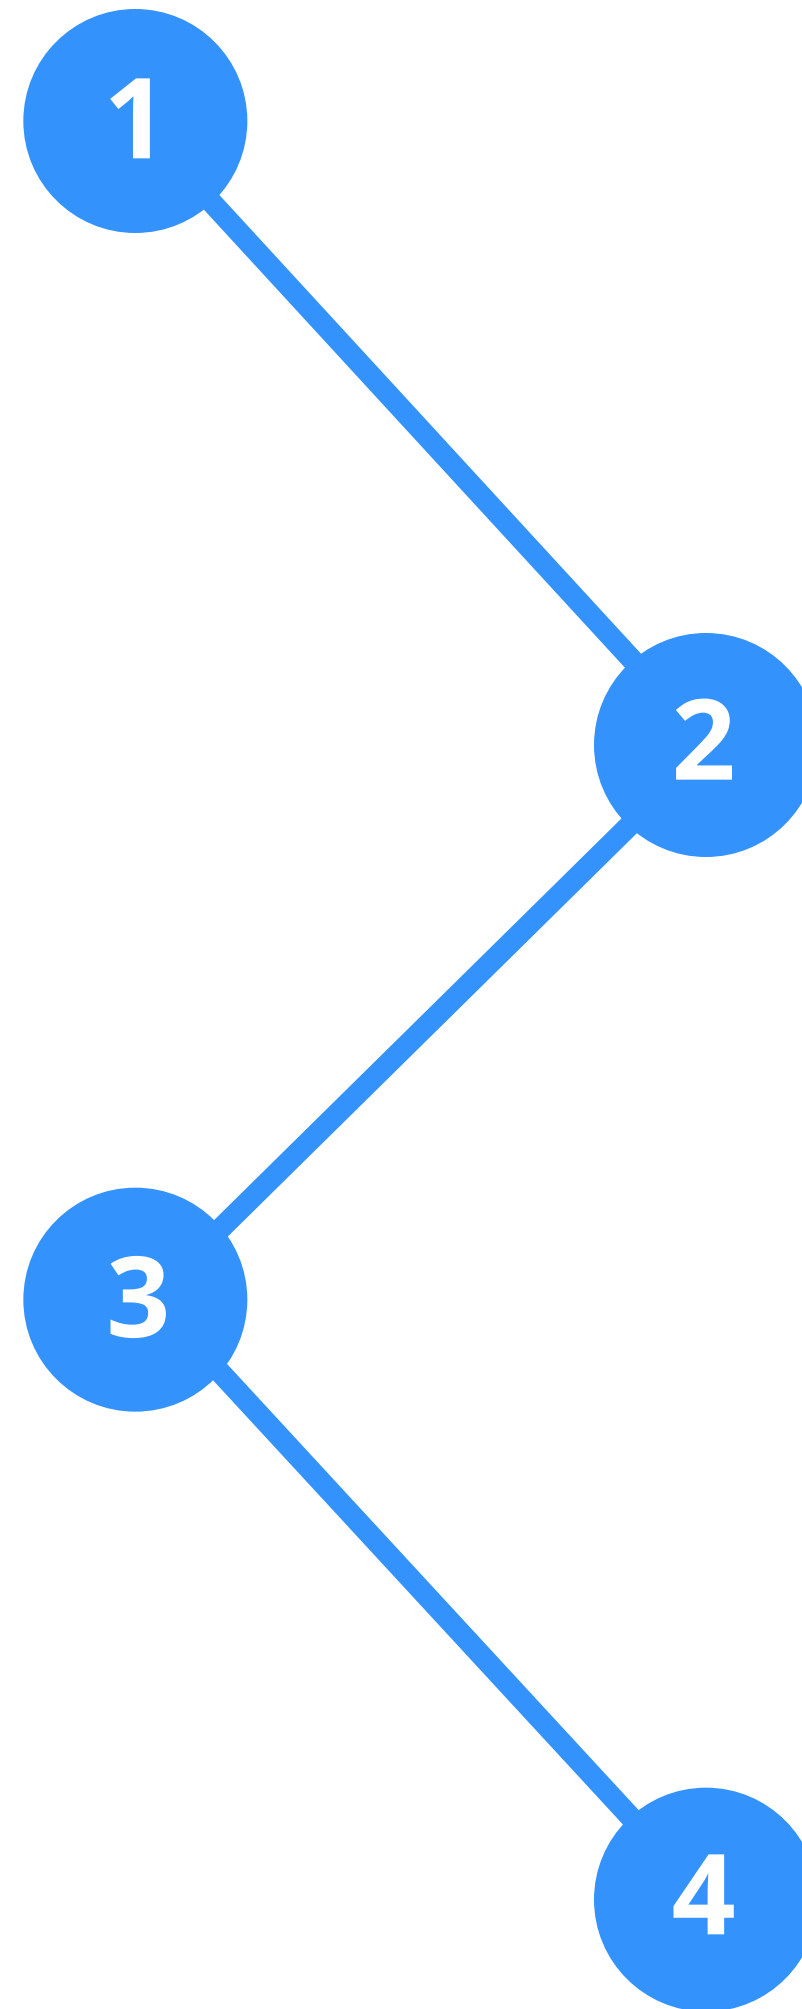

If your group already uses Paylocity, reach out to their Paylocity account manager.  
If the group is interested in switching, contact Paylocity sales at 1-800-520-2687.

# How to Get Started

Once you've completed and submitted the Payroll Automatic Transfer form to Paylocity, they will reach out to EaseCentral to start the integration.

EaseCentral will host a kickoff call with you, a member of the Paylocity team and your group admin to confirm set up and preferences. Once completed, EaseCentral will begin a short testing phase with Paylocity.

The EaseCentral team will receive your company structure and employee demographic information and begin setup.

Once test files are successfully received and loaded, the integration will be turned on and the data will flow automatically.
